

Queens Sprints

Belfast, UK

15th December 2019

Remarks

Cold, but calm conditions with a low flow. This is a novice-only event intended to give quick racing experience after three months of training, Queens annually host this private race in a friendly atmosphere. DUBC won all of their races, while DULBC lost all of their races against Queens, which created a tie, this was broken by combining the four best rowers each from DUBC and DULBC to race their counterparts in Queens, which was won by us, making Dublin University the winner overall.
